

*Vegetarian Society of Colorado's
Mission Statement*

Founded in 1975, The Vegetarian Society of Colorado is a 501(c)3 nonprofit, nonsectarian, educational organization dedicated to upholding the standards of vegetarianism. We sponsor community outreach programs, educational events, potluck dinners and speakers. We bring people together to discuss and live a humane, healthful and environmentally responsible plant-based lifestyle. We actively seek inquiries about vegetarianism and are engaged in an ongoing program of literature distribution and public outreach. We are staffed and directed by volunteers and funded through donations, sales and fund-raising projects.
